SUMMARY

Motivated and detail-oriented Full stack developer with expertise in JavaScript, React, and Python, seeking a challenging and dynamic role where I can use my technical skills and real-world business experience to create innovative solutions and drive positive impact. Proven ability to streamline processes and prioritize business functions, and a passion for continuously learning and staying up to date on the latest technologies.

SKILLS

LANGUAGES: JavaScript, TypeScript, Ruby, CSS, HTML, SQL, NoSQL, Python

FRAMEWORKS & LIBRARIES: Nodejs, React, Express.js, jQuery, Rails, Django, Next.js

SYSTEMS & DATABASES: PostgreSQL, Git, Firebase, MongoDB

TESTING: Jest, Storybook, Cypress, RSpec

PROJECTS

StockOverWatch

A user-friendly software application that enables users to manage a simple investment portfolio without the risk of losing real currency. The application's front end is built using the React and Chartjs frameworks, and it utilizes the Finnhub API to retrieve current and historical stock data. The backend is handled using the Firebase platform.

Tech Stack: React, JavaScript, SaSS, Tailwind, Chartjs, Axios, FireBase, Finnhub API

Jungle-Rail

A mini e-commerce application built with Ruby on Rails that allows visitors to view, purchase, and review products. Email receipts are sent upon a successful order that uses the Stripe API for secure transactions.

Tech Stack: Ruby, Rails, Stripe API, PostgreSQL, Bootstrap CSS

Scheduler

A single-page application (SPA) that allows users to book technical interviews between students and mentors. The front end of this project is built with React and makes requests to an API to fetch and store appointment data from a database.

Tech Stack: React, JavaScript, CSS, Axios, Jest, Cypress, Storybook

EDUCATION

Lighthouse Labs 2022 - 2022

Diploma In Full Stack Web Development

University of Lethbridge 2006 - 2010

Bachelor Fine Arts (New Media)

WORK EXPERIENCE

Accounts Payable Specialist | Bennett Jones LLP | Calgary, AB | Jun 2019 – Nov 2022

- Developed VBA scripts to automatically extract, standardize and consolidate client disbursements under 12 government accounts into each business location, client files, and general ledgers.
- Validated, corrected, and imported weekly billable and non-billable client charge data into the system to ensure data collection and report accuracy.
- Performed trend analysis for monthly IT equipment and recurring software costs to help with the IT department's budget report.

Accounts Payable Specialist | Morguard Investment | Calgary, AB | Sept 2017 – Jun 2019

- Prepared and automated AP ageing report to shorten the payment cycle by 15 days for AP team.
- Distributed payments to vendors, delivered recurring reports to monitor discount opportunities and resolved discrepancies in PO, invoices, and payments.
