SUMMARY

Full Stack Web Developer has background in the financial accounting. Passionate about streamlining and automating processes in apps to save users time and prioritize focus on business functions. Has the skills and experience necessary to be successful in web developer positions that require a combination of technical expertise and real-world business experience.

SKILLS

LANGUAGES: JavaScript, TypeScript, Ruby, CSS, HTML, SQL, NoSQL, Python
FRAMEWORKS & LIBRARIES: NodeJs, React, Express.js, jQuery, Rails, Django, Next.js
SYSTEMS & DATABASES: PostgreSQL, Git, Firebase, Mongodb
TESTING: Jest, Storybook, Cypress, RSpec

PROJECTS

StockOverWatch   Dec. 2022
StockOverWatch is a user-friendly software application that enables users to manage a simple investment portfolio without the risk of losing real currency. The application's front end is built using the React and Chartjs frameworks, and it utilizes the Finnhub API to retrieve current and historical stock data. The backend is handled using the Firebase platform.
Tech Stack: React, JavaScript, SCSS, Tailwind, Chartjs, Axios, FireBase, Finnhub API

Jungle-rails   Nov. 2022
A mini e-commerce application built with Ruby on Rails that allows visitors to view, purchase, and review products. Email receipts are sent upon a successful order that uses the Stripe API for secure transactions.
Tech Stack: Ruby, Rails, Stripe API, PostgreSQL, Bootstrap CSS

Scheduler   Oct. 2022
Interview Scheduler is a single-page application (SPA) that allows users to book technical interviews between students and mentors. The front end of this project is built with React and makes requests to an API to fetch and store appointment data from a database.
Tech Stack: React, JavaScript, CSS, Axios, Jest, Cypress, Storybook

EDUCATION

Lighthouse Labs   2022 - 2022
Diploma In Full Stack Web Development

University of Lethbridge   2006 - 2010
Bachelor Fine Art (New Media)
